Old school Finnish thrashers BLOODRIDE will be releasing their third album titled Planet Alcatraz through Inverse Records on 26th November.

On this album anger and frustration has risen to new level which can be seen on lyrical themes. Stupidity and selfishness of mankind gets loads of verbal hits this time. Musically these assaults are also very hard, brutal but sometimes even catchy.

Album was recorded during at Peter´s Cross Studios between December 2015-May 2016 by Petteri Lammasaari and was mixed and mastered by Jarno Hänninen at D-Studio. Artwork is done by Niko Bauer from PoorAndStarving.

Bloodride has been around since 2000 and have played maaaany shows for example with acts like Exodus, Toxic Holocaust, Exhumed, Deathchain so these men really know how to thrash.
